WE'RE PLACING THE SPOTLIGHT
ON CARD SECURITY
FOR YOUR ONLINE COMMUNITY

STEVIE® AWARD

1.800.LITLECO
www.litle.com

Litle Vault—one of the first platform-integrated tokenization solutions engineered exclusively for card-not-present commerce—is a 2011 Stevie® Award winner for New Product & Service innovation.

Litle Vault removes sensitive card data and replaces it with tokens for all payment transactions, including authorizations, deposits and chargebacks. Reducing your scope of PCI compliance, Litle Vault allows you to safely remove cardholder data from your system in a way that's transparent to online users.

To set up a personal consultation on Tokenization, email us at vault@litle.com
