

## On March 1<sup>st</sup> 2010 All Massachusetts Businesses Had To Comply with MASS 201 CMR 17, Requiring the Encryption of Personal Information.

If you're affected but haven't yet complied, this law could be a monster that overwhelms your business. In other words you can't ignore it and hope it just goes away.

But there is an alternative. In-flight or at rest, Venyu ensures your data remains fully encrypted at all times. No additional hardware, management, maintenance (or tape) required!

Venyu's Boston-based commercial grade backup and disaster recovery solutions keep the MASS 201 CMR 17 Encryption Monster from taking over your business.
