

Less Time. Better Performance.

*Speed Up Your Native Backups with
LiteSpeed® for SQL Server*

If you're not getting the backup and recovery performance you need from your native SQL backup, LiteSpeed can speed it up – by as much as 75%. That's like increasing your data capacity by a factor of four without having to buy a single drive!

LiteSpeed uses Native Command Substitution (NCS) and innovative compression to accelerate your native SQL backup time. You can even use your existing native SQL scripts. No need to rewrite or test code.

With LiteSpeed you get back 30 minutes for every hour you spend on SQL backup – up to 2 Terabytes of data backed up in under an hour. Stop wasting your time with anything less.

Less time for backups. Better performance from native SQL Server. That's LiteSpeed from Quest Software.
