

# RISK DEFENDER

**YOU** are a master at planning for short-term disruptions. Things like scheduled downtime and service upgrades. But defending from risks like manmade or natural disasters or cyber-attacks — events that can take down your business for days, weeks, and even months — can be challenging. That's where we come in.

**WE** are Sungard Availability Services, a Leader in **Disaster Recovery as a Service (DRaaS)**. Our comprehensive lifecycle approach to recovery not only keeps production systems available, but also provides alternate Workplace Recovery sites to keep your business up and running.

Lead with resilience at [www.sungardas.com](http://www.sungardas.com).

Transforming IT for resilient business™
